WHEREAS, the dedicated members of the International Code Council develop and implement the highest-quality codes to protect Americans in the buildings where we live, work, play, and learn; and

WHEREAS, the International Codes, the most widely adopted building safety, energy and fire prevention codes in the nation, are used by most U.S. cities, counties and states, and include safeguards to protect the public from natural disasters such as hurricanes, snowstorms, tornadoes, wildland fires and earthquakes; and

WHEREAS, Building Safety Week, sponsored by the International Code Council and International Code Council Foundation, reminds the public about the critical role of our communities' largely unknown guardians of public safety – our local code officials – who assure us of safe, efficient and livable buildings; and
