

# Proclamation

Community efforts to address the critical issues of safety, energy efficiency and sustainability in our public and private buildings strongly impact the citizens of Monroe County and give us confidence that our structures and buildings are safe and sound.

Our confidence is achieved through the devotion of building safety and fire prevention officials, architects, builders, laborers and other professionals in the construction industry who work year-round to ensure building safety. This is enforced by members of the International Code Council (ICC), who develop and implement the highest quality codes to protect Americans in the buildings where we live, learn, work and play.

These codes are widely adopted by building safety, energy and fire prevention officials in most of the United States – including Monroe County. The ICC sponsors Building Safety Week to remind our community of the critical role of our local code officials; to ensure buildings are safe, efficient and habitable.

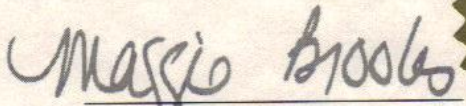

The theme of 2009 Building Safety Week is “Building Safety: Where You Live, Work and Play” – which recognizes that countless lives have been saved due to the implementation of safety codes and regulations.

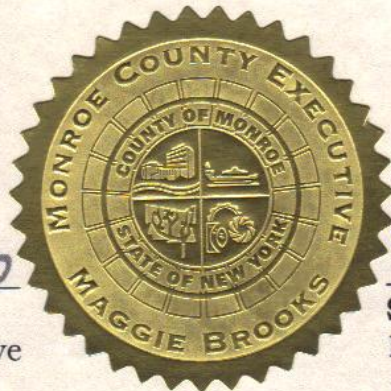

**THEREFORE, We, Maggie Brooks, Monroe County Executive, and Steve Tucciarello, Monroe County Legislator,** do hereby proclaim May 3<sup>rd</sup> through 9<sup>th</sup> to be:

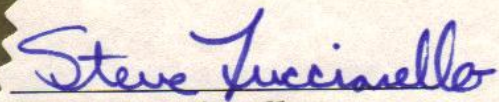

## **2009 Building Safety Week**

in Monroe County and encourage all residents to join in the participation of this week throughout their communities.

**We have hereunto** set our hands on this third day of May in the year two-thousand and nine.

  
**Maggie Brooks**  
Monroe County Executive

  
**Steve Tucciarello**  
Monroe County Legislator  
4<sup>th</sup> Legislative District
